Low-Fidelity Wireframes

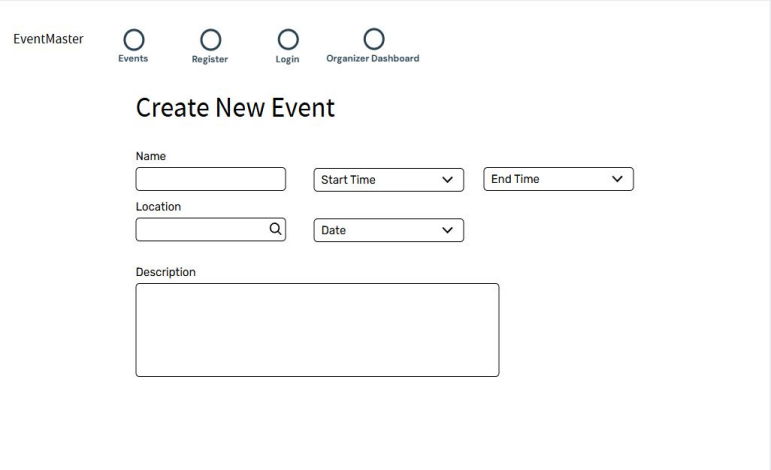
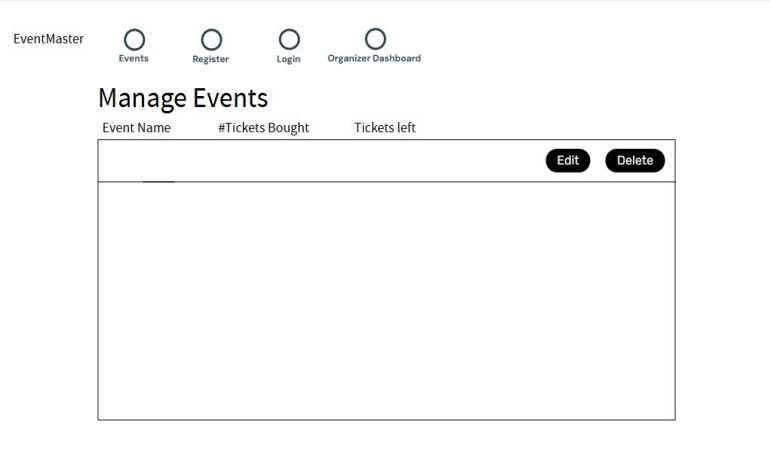
Low-Fidelity Wireframes (Organizer View)





Project Demo

Technologies

Frontend
- ASP.NET Core MVC (Razor Views using .cshtml)
- HTML
- CSS
- Bootstrap

Backend
- ASP.NET Core (Server-rendered)
- C#
- Entity FrameWork Core

Database
- MySQL

Team Learning Plan

ASP.NET Core MVC & C#

- Learned how to structure backend logic with C#
- Learned MVC architecture, controllers, and Razor views

Stripe Payment Integration (Planned)

- Learn how to integrate stripe into our service to facilitate payments
- Test payments flows using stripes test mode

OAuth 2.0 (Planned)

- Learn authorization flows and how to securely handle tokens

Conclusion

Upcoming Milestones

- Core Development
- Feature Completion & QA
- Final Delivery

Risks

- Scope creep from feature requests
- Time constraints
- Learning Curve

Thank You!!!
